PERFORMANCE & DEVELOPMENT

Performance Review Cycle

Q1	Q2	Q3	Q4
Goal Setting	Mid-Year Check	Development Focus	Annual Review

CYCLE COMPONENTS

Self-assessment
Manager assessment
Peer feedback (360°)
Calibration sessions

RATING SCALE

Exceptional — Consistently exceeds
Strong — Meets and often exceeds
Developing — Meets most expectations
Below — Not meeting expectations

PERFORMANCE & DEVELOPMENT

Goal Setting Framework

> *We use OKRs at the company level and individual level. Goals cascade from company → team → individual.*

GOOD GOAL EXAMPLE

Objective: Improve onboarding experience
KR1: Reduce time-to-first-value from 8 days to 3 days
KR2: Achieve 90% onboarding completion rate
KR3: New hire NPS > 70

WEAK GOAL EXAMPLE

~~**Objective: Make onboarding better**~~
~~KR1: Improve the onboarding deck~~
~~KR2: Get more feedback~~
~~KR3: Be more responsive~~
Not measurable, not time-bound, not outcome-oriented.

PERFORMANCE & DEVELOPMENT

Feedback Model

SBI

Situation → Behavior → Impact

"In yesterday's standup (S), when you walked through the blockers with clear next steps (B), the team was able to unblock in 30 minutes instead of a day (I)."

Continuous

Not just at review time

Give feedback within 48 hours. Regular 1:1s are the primary feedback channel. Don't save it for the cycle.

Two-Way

Managers receive feedback too

Skip-level meetings quarterly. Anonymous upward feedback in engagement surveys. Manager effectiveness score.

PERFORMANCE & DEVELOPMENT

Career Ladder

Level	Title	Scope	Experience	Comp Band
L3	Engineer	Task-level ownership	0–2 years	$XXX–$XXXk
L4	Sr. Engineer	Feature-level ownership	2–5 years	$XXX–$XXXk
L5	Staff Engineer	System-level ownership	5–8 years	$XXX–$XXXk
L6	Sr. Staff Engineer	Org-level impact	8+ years	$XXX–$XXXk
L7	Principal Engineer	Company-level impact	10+ years	$XXX–$XXXk+

IC and management tracks diverge at L5. Both tracks have equivalent comp, scope, and career ceiling.

PERFORMANCE & DEVELOPMENT

Promotion Criteria
