How We'll Work Today

- **Cameras on**
  Stay present and engaged throughout the session.
- **Questions in chat**
  Drop questions in the chat — we'll address them at section breaks.
- **Mute when not speaking**
  Helps keep background noise down for remote participants.
- **Decisions by end**
  We'll aim to leave with clear owners and next steps.

“

Our mission is to [verb] [audience] by [method], creating [outcome].

— Company / Product Mission Statement

CONTEXT & STRATEGY

Strategic Pillars

01
Growth
Expand user base through referral loops and new market entry.

02
Reliability
Invest in infrastructure to achieve 99.99% uptime.

03
Intelligence
Embed ML across the product to personalize every touchpoint.

04
Trust
Lead on compliance, transparency, and user data protection.

CONTEXT & STRATEGY

OKRs — Q1 2026

Objective 1: Increase activation rate

KR1: Onboarding completion → 75%	60%
KR2: Day-7 retention → 40%	45%
KR3: First transaction < 3 min	80%

Objective 2: Improve operational efficiency

KR1: Support tickets ↓ 30%	35%
KR2: Avg resolution < 4 hrs	70%

CONTEXT & STRATEGY

Competitive Landscape

HIGH DIFFERENTIATION

DO FIRST	SCHEDULE
QUICK WINS	DEPRIORITIZE

LOW DIFFERENTIATION

NICHE

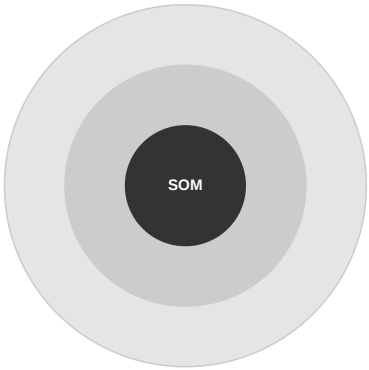
MASS MARKET

Key Takeaway

We occupy a unique position — high differentiation, niche focus. Competitor D is encroaching.

CONTEXT & STRATEGY

Market Opportunity



TAM

$XX B

Total addressable market — all potential revenue globally.

SAM

$X.X B

Serviceable addressable market — reachable with current model.

SOM

$XXX M

Serviceable obtainable market — realistic near-term capture.

CONTEXT & STRATEGY

Primary Persona

Persona Name

Age · Location · Occupation

"A brief quote that captures their perspective or frustration in their own words."

NEEDS	PAIN POINTS	GOALS
Need statement 1	Pain point 1	Goal statement 1
Need statement 2	Pain point 2	Goal statement 2
Need statement 3	Pain point 3	Goal statement 3

CONTEXT & STRATEGY

Customer Journey

Awareness	Consideration	Onboarding	First Use	Retention
TOUCHPOINT Channel or interaction	TOUCHPOINT Channel or interaction	TOUCHPOINT Channel or interaction	TOUCHPOINT Channel or interaction	TOUCHPOINT Channel or interaction
OPPORTUNITY Pain point to address.	OPPORTUNITY Pain point to address.	OPPORTUNITY Pain point to address.	OPPORTUNITY Pain point to address.	OPPORTUNITY Pain point to address.

Jobs To Be Done

When [situation], I want to [motivation], so I can [expected outcome].

FUNCTIONAL JOBS	EMOTIONAL JOBS	SOCIAL JOBS
Complete the task quickly	Feel confident it's done right	Look responsible to family
Reduce errors and rework	Reduce anxiety about money	Demonstrate reliability
Get confirmation it worked	Feel in control of the process	Maintain trust with recipients

PROBLEM

[User segment] struggles to [action] because [root cause], which results in [negative outcome / business impact].

SUPPORTING EVIDENCE

XX% of users drop off at step 3

X.X avg NPS for this flow

XXk support tickets / quarter

Research Summary

METHODOLOGY

Method

KEY FINDINGS

1. Finding 1: Brief summary of the most important insight from the research.

Moderated usability tests

Participants
n = 12

Duration
45 min sessions

Date Range
Jan 6–24, 2026

Segments
New (6), Returning (6)

2. Finding 2: Second most critical observation with supporting context.
3. Finding 3: Third finding that connects to a product opportunity.
4. Finding 4: Additional insight that influenced the recommendation.

RESEARCH & INSIGHTS

What We Heard

Theme 1: Trust & Transparency

"I never know if it went through until I call my family."

"The fees feel hidden — I want to see everything upfront."

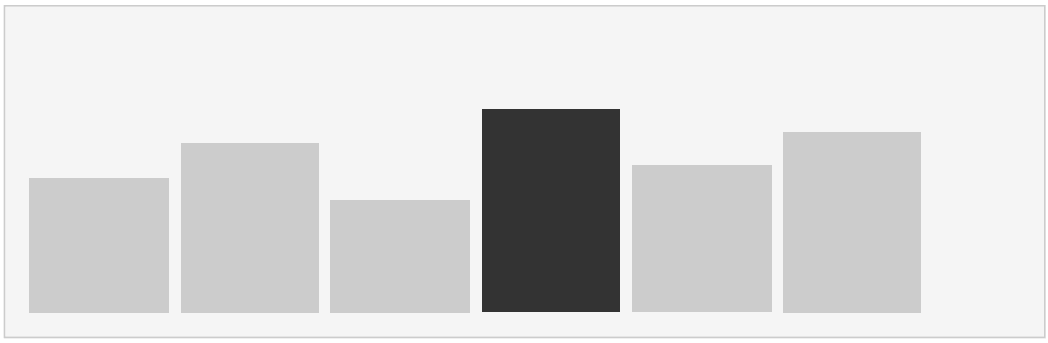
Theme 2: Speed & Simplicity

"I just want to send money in three taps, max."

"Every extra screen makes me nervous I'll make a mistake."

RESEARCH & INSIGHTS

Key Metrics



CALLOUT

XX%

increase in metric during Month 4.

TREND

Brief interpretation of what the data trend means for product direction.

RESEARCH & INSIGHTS

NPS Scorecard

42

Current NPS

+5 QoQ

DISTRIBUTION

Promoters 60% Passives 18% Detractors 22%

RESEARCH & INSIGHTS

Voice of the Customer

"I wish I could see the exchange rate before I start."

Pricing

"My mom doesn't have a smartphone, so the link doesn't help."

Access

"I tried three times and kept getting errors."

Reliability

"The confirmation takes too long — I get worried."

Speed

"I love how simple it is compared to [competitor]."

Simplicity

"Can I schedule a recurring transfer?"

Feature Req

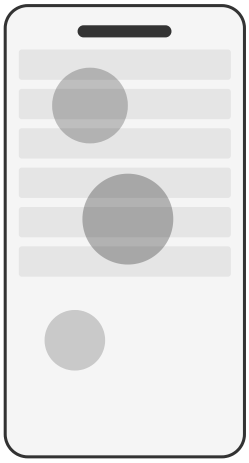
"I don't understand why my transfer is on hold."

Transparency

"My friend told me — best decision ever."

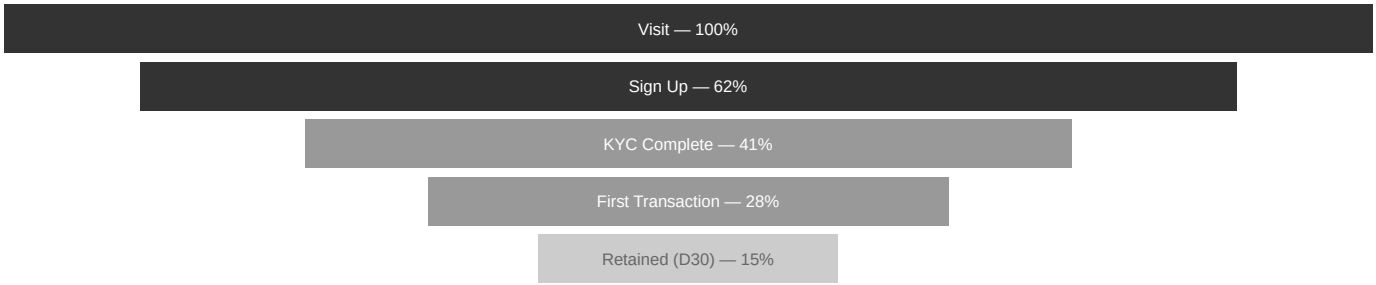
Referral

Click Heatmap



- **A** **Primary CTA**
  72% of clicks — users go straight to send money.
- **B** **Balance Check**
  48% interact — suggests high engagement.
- **C** **Help / FAQ**
  31% tap for help — potential confusion signal.

Conversion Funnel



Biggest drop-off: Sign Up → KYC Complete (21 pp). Root cause: ID verification friction for users without US-issued documents.

RESEARCH & INSIGHTS

Segment Comparison

Metric	Segment A	Segment B	Segment C	Delta
Activation Rate	72%	58%	65%	**+14pp**
Avg Transactions / Mo	4.2	2.8	3.5	**+1.4**
Avg Transaction Value	$320	$180	$250	**+$140**
D30 Retention	48%	31%	40%	**+17pp**
NPS	52	28	41	**+24**
Support Tickets / User	0.3	1.2	0.7	**-0.9**
Revenue / User / Mo	$12.80	$5.40	$9.10	**+$7.40**

PRODUCT VISION

In [timeframe], [product] will be the [aspirational position] for [audience], making [outcome] effortless.

This vision guides every product decision we make.

Success Metrics

KPI	Baseline	Target	Measurement Method
Activation Rate	52%	**70%**	Product analytics (Amplitude)
Time to First Txn	8.2 min	**< 3 min**	Funnel timing events
D30 Retention	31%	**45%**	Cohort analysis
NPS	+28	**+50**	Quarterly survey

Design Principles

01 **Clarity over cleverness** Every screen should be instantly understandable. If it needs explanation, simplify.

02	**Speed is a feature**	Reduce friction at every step. Fewer taps, faster feedback, zero dead ends.
03	**Trust through transparency**	Show the math, the timeline, and the status. Never leave users guessing.
04	**Design for context**	Our users are multitasking, on mobile, often in a hurry. Design for their reality.
05	**Accessible by default**	Every interaction must work for every user, regardless of ability or device.

Accessibility Checklist

VISUAL

- ✓ Color contrast meets WCAG AA (4.5:1)
- ✓ Text scales to 200% without loss
- ✗ No info conveyed by color alone

INTERACTION

- ✓ All elements keyboard accessible
- ✓ Focus order is logical and visible
- ✗ Touch targets ≥ 44×44px

CONTENT

- ✓ Alt text for all images
- ✓ Headings follow hierarchy
- ✓ Error messages are descriptive

7 of 9 criteria met — 2 items require remediation before launch.

Technical Architecture

CLIENT LAYER — Mobile App · Web App · WhatsApp

API Gateway

Auth Service | Payment Service | Notification Service | Analytics

DATA LAYER — PostgreSQL · Redis · S3 · Kafka

EXTERNAL — Banking Partner API · KYC Provider · SMS Gateway

REVIEW & CLOSING

Status Dashboard

Workstream	Status	Owner	Notes
Consumer App	●	Name	On schedule
Backend / Infra	●	Name	API partner delayed
Design	●	Name	Hi-fi complete
QA	●	Name	Tests written
Compliance	●	Name	Awaiting legal review
Ops & Tooling	●	Name	Dashboard updates in progress

● On Track ● At Risk ● Blocked

REVIEW & CLOSING

Decisions Needed

DECISION 1

Should we launch with partial KYC or wait for full integration?

Options: A) Partial launch B) Wait for full

Recommend Option A — faster learning

Owner: VP Product · Decide by: Mar 21

DECISION 2

Do we invest in native app or stay WhatsApp-first for Brazil?

Options: A) Native app B) WhatsApp-first

Recommend Option B — lower CAC

Owner: CEO · Decide by: Mar 28

REVIEW & CLOSING

Next Steps

Action Item	Owner	Due	Status
Finalize KYC integration spec	Name	Mar 18	Not Started
Complete hi-fi designs for onboarding v2	Name	Mar 20	In Progress
Set up monitoring dashboard	Name	Mar 22	Not Started
Schedule legal review	Name	Mar 19	Blocked
Draft support training materials	Name	Mar 25	Not Started
Run load test on payment service	Name	Mar 21	In Progress

Retrospective

Went Well	Didn't Go Well	Change Next Time
Strong cross-functional alignment	Scope creep in Sprint 2	Involve legal from Sprint 1
Research-led decisions	Late compliance feedback	Stricter scope governance
On-time delivery of core features	Insufficient load testing time	Dedicated QA from kickoff
